

Middle East Bank Kenya Ltd

Qualitative Disclosures – 30/06/2020

1. Financial Performance

The Bank achieved a net *profit* before tax of Kshs 47.3m for the period ended 30 June 2020 compared to net *profit* before tax of Kshs 91.8m for a similar period of 2019. The Bank's total assets stood at Kshs 10,187bn from Kshs 6,607bn in the same period last year. The balance sheet increase has largely been attributed to increase in customer deposits from new customers.

2. Financial Position

The Bank's financial position improved in 2020 compared to similar period in 2019. Total shareholder funds slightly decreased from Kshs 1.218bn as at 30-06-2019 to Kshs 1.191bn as at 30-06-2020 largely due to reduced reserves. The liquidity ratio as at 30-06-2020 was 29.20%, a reduction compared to 35.65% as at 30-06-2019. Despite the increase in customer deposits, increased lending contributed to the decrease in liquidity ratio. The Bank was however well above the minimum statutory ratios for core capital to deposit liabilities, risk-weighted assets and total capital to risk weighted assets.

3. Risk Management Strategies and Practices

The Banks' risk management policies and processes are designed to identify and analyze risk, set appropriate risk appetite, limits and controls, and to monitor the risks and adherence to limits by means of reliable and up-to-date data. Risk management policies, models and systems are regularly reviewed to reflect changes in market, products and best market practice.

The Board of Directors is responsible for setting overall risk appetite of the bank and oversees the management of the most significant risks through regular review of risk exposures and related key controls. The Board Risk and Compliance Committee (BRCC) is responsible for monitoring the Banks' risk profile against the agreed risk appetite and reports on the same to the Board. At management level, there is the Risk Management Committee (RMC) which oversees the risk management process and ensures checks and balances are in place to curb against any would be arising risk. The Risk and Compliance Manager is a member of the senior management team of the bank and has overall day to day responsibility for risk management and reports directly to the BRCC. The Internal Audit function is responsible for the independent review of risk management and the control environment.

4. Risk Exposures

The Bank has adopted a Risk Management Framework for identifying, monitoring and addressing the various risk exposures faced in day to day operations. In addition, various limits are in place with respect to risk exposure within which the Bank must operate. These limits are monitored daily and reported to the RMC on a monthly basis and to the BRCC and Board of Directors on quarterly basis.

5. Related Parties

Our total insider loans and advances to Directors, shareholders, associates and employees increased from Kshs 85.3m as at 31-03-2019 to Kshs 390.6m as at 30-06-2020.
